Company Presentation

We create **technology** to transform the everyday, for **everyone**

By combining the **real** and the **digital** worlds, Siemens empowers customers to master their digital transformation and sustainability challenges

Industry

Infrastructure

Mobility

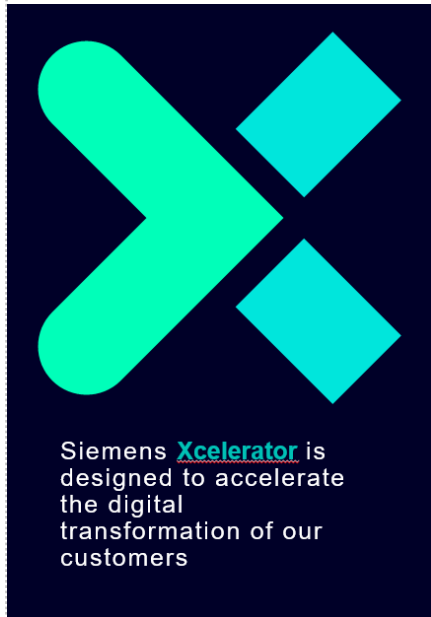

Healthcare

Digital transformation has the potential to drive progress and growth and reduce resource consumption in all countries

Company Presentation

A comprehensive, curated **portfolio** that includes digital and IoT-enabled offerings from Siemens and certified partners

A continuously growing, powerful **ecosystem** of partners

An evolving **marketplace** that enables education, exploration, exchange and transaction within a community of customers, partners and experts

Building X – Leap into the future

A scalable digital building platform to digitalize, manage and optimize building operations, allowing for enhanced user experience, increased performance and improved sustainability.

Siemens Challenge

Development of a Mobile Tenant App: *Enhancing Tenant Experience and Energy Efficiency*

- Provides **mobile** access
- Targets the **tenants** of a building
- Access **Real-time and Historical energy data** in buildings
- Offers a comprehensive understanding of **energy consumption**
- Empowers tenants to make **data-driven decisions**
- Notifies tenants and helps them achieve their **sustainability goals**

Siemens Challenge

Enhancing Tenant Experience and Energy Efficiency

Description

1. User friendly dashboard for sustainability
2. AI Powered Notifications for Energy Consumption and Optimization
3. Chatbot for Tenant Experience Enhancement

Importance

1. Awareness: Tenants will be more conscious of their consumption habits
2. Empowerment: Empowers tenants to make data-driven decisions
3. Ease of Use: Simplifies the process of accessing sustainability data
4. Engagement: The app encourages a sense of responsibility over energy usage, fostering sustainability
